

Drug Facts

Active Ingredients

1.75% Chloroxylenol Antiseptic Pre-Operative Skin Scrub Preparation

Purpose

Uses A fast acting, persistent, broad spectrum antiseptic for preparation of the skin prior to body piercing or tattoo application. Microsan® RX E2T Antiseptic Pre-Operative Skin Scrub Preparation helps reduce 99.999% of organisms that may cause skin infections in 30 seconds or less.

Warnings For external use only.

Do not use on infants under 6 months of age.

If redness or irritation develops, discontinue use.

Directions Apply Microsan® RX E2T with a sterile Q-tip or sterile gauze pad starting at the center of the area of interest and working your way toward the outside using a circular motion until the site is prepped. After 30 seconds you may remove the excess scrub by wiping with a sterile gauze pad. This will leave a residual layer of protection for 4-6 hours. There is no need to rinse.

Inactive Ingredients Ammonium Lauryl Sulfate, Cetyl Alcohol, Carbomer Thickener, Fragrance.
